

## EXPLOSION WRECKS N. Y. WALL STREET

(Continued from Page 1.)  
Thousands who tried to pass themselves into Wall street. Telephone service was shut off from many public booths in the vicinity and all banking offices were placed under extraordinary heavy guard.  
A wrecked automobile bearing the New Jersey license No. 14,246 was found near the Morgan building and the police tried to establish whether this was the machine which had figured so prominently in versions of the disaster.  
An hour after the explosion occurred, the police were inclined to the theory that it had been caused by a collision of a No. 2 truck and an automobile on Wall street between the Morgan office and the sub-treasury building.  
Was it T. N. T.?  
They pointed to the fact that a demolished truck was found at this point near the wrecked automobile. The authorities switched their theory from dynamite to T. N. T. because of the fact that there appeared a great hole in the pavement, such as would have been blasted by the downward force of dynamite.  
The damage to the Morgan building alone was estimated at \$500,000. Minor damage to hundreds of other buildings. It was expected would total at least \$500,000 more.  
The reported license number of the wrecked automobile was that of Danham Beeson, 171 South Third street, South Orange, N. J. Beeson is manager of a pharmacy in Newark.  
Heart of the World's Finance.  
The explosion, near the heart of the world's financial district. On one side of the street is the stock exchange. On the other is the house of Morgan, running from Broadway to Broadway, one of the largest office buildings in the world. All around are the leading banking and brokerage houses of the United States. Many of the buildings are the suburbs of the Morgans and the stock exchange is of the highest type of architecture.

## INDIA'S ATTITUDE TOWARDS PRINCE IS ONE OF INDIFFERENCE

New York.—India's attitude toward the Prince of Wales is one of "cold indifference if not actual hostility," according to Dr. N. S. Hardiker, director of the India Information Bureau, who made public here today certain phases of the Nationalist movement which, he said, had caused King George to cancel his proposed visit of his heir apparent to India next winter.

It has been announced that the Prince would go to India for the purpose of inaugurating reform legislation in connection with the Durbar ceremonies at Delhi. The Duke of Connaught, formerly Governor General of Canada, the Prince's uncle, will perform the royal functions in the Prince's place.

"Developments in the next few months in India," said Dr. Hardiker, "promise to be more fundamentally significant than any that have occurred since the Indian War of Independence or 'Sepoy' rebellion of 1857. The year of 1920 has been filled with excitement and change. From last March until May, a period of about 40 days, 125 strikes occurred, 85 of them in the Bombay district alone. These labor outbreaks typify a new phase in the discontent of the masses."

"The second great movement of the present year has been the attitude of the people toward the Turkish peace treaty settlement. India has been the first to protest against the loss of its power and prestige as embodied in the Turkish Treaty and it is also obtaining a modification of that surrender by the Nationalist movement by encouraging the separation of the Hindu and Mohammedan. Today, for the first time in its long history, the Hindu and Mohammedan are united and are pledged to work in concert until the last obstacle to Indian freedom has been removed."

"The entire Mohammedan world protests the loss of its power and prestige as embodied in the Turkish Treaty and it is also obtaining a modification of that surrender by the Nationalist movement by encouraging the separation of the Hindu and Mohammedan. Today, for the first time in its long history, the Hindu and Mohammedan are united and are pledged to work in concert until the last obstacle to Indian freedom has been removed."

## BRITISH TREATMENT OF NEGROES IN EAST AFRICA IS INDICATED

London.—An indictment of British treatment of negroes in British East Africa is made by Sir H. H. Johnston, writing in The Observer. "Many of the assertions made before the negro conference in New York," he says, "were wild and windy, but it behooves our colonial office to be plain justice done to the 2,000,000 of black and brown people in this colony and protectorate. Numerous instances of building, flooding and torturing are cited by the writer. 'The natives,' he says, 'are slowly being exterminated by British rule. Mohammedan and Christian and Pagan, Schall and Galla with him, are despised as to their common hatred of the invading life, much owing to the exceptional cruelties which have marked the white man's record during the period of 15 years. There are not cruelties of soldiers or policemen, of government servants of any kind, but of individual settlers, traders, or even missionaries. Not only have murders, light-bourning, kidnappings of natives taken place all too frequently, not only have cruel and senseless punishments been inflicted, but when the white delinquents are brought to trial white judges are set against white judges, inflicting cruel penalties or releasing public opinion forces a governor to revise a sentence. I doubt if capital punishment for murder has ever been imposed on a white man in East Africa."

"Again, in the great war, thousands and thousands of native porters were regularly employed by our government or by the military authorities in the unhappy-destined protectorate and the same men, for their commissariat, their medical treatment, their lodging and clothing have been miserably inadequate, with the result that some 22,000 to 25,000 of them (it was reported) died during the pursuit of the German forces."

"The survivors have retained tongues and the power of speaking, some even had been mission educated and when 'Dora' (Defense of the Realm Act) took her hand off the mail service they have stammeringly told the world outside Africa something of their preventable sufferings and even of singularly curious and sometimes cruel treatment at the hands of the military authorities."

"Now the exterminating incident is this. Some two months ago there occurred at Nairobi, in British East Africa, cases of flogging and torture, so severe that according to a medical officer's report, in some cases, the flogged natives died from the torture and flogging. These cruel scenes were committed on the European plantation. The Europeans, in what is now termed a colony, apparently take 'how into their own hands and administer punishment,' they please."

"A young man with a pleasant brogue," he said, "went into a Chicago store and asked to see some socks. The salesman brought out a sack box, opened it and said: 'I recommend these very highly. They're holeproof.' 'The young Irishman smiled. 'Holeproof, are they?' said he. 'Then be jabbers, make me a suit of the same material for my brother Mike. He's a constable in the Royal Irish Constabulary.'"

## CAMPAIGN TO MAKE SCOTLAND DRY IS ON IN EARNEST

Edinburgh.—The campaign to make Scotland dry has been started in earnest by the National Citizens' Council under the provisions of the Temperance (Scotland) Act which enables the electors to decide by a vote whether the country should go dry, regulation forms demanding a poll on the no-license question have been issued. In order to secure a poll ten percent of the electors in each area must sign the regulation forms. Should this be forthcoming the next stage will be the taking of the vote which will decide whether the people shall have no licenses, or fewer licenses in their own areas, or there shall be no change.

Temperance enthusiasts believe that although Scotland may not go dry this year the "no-license" resolution will be carried in many municipal wards. They have obtained the services of W. E. (Pussyfoot) Johnson who will address a number of meetings next month. On the other hand, the liquor tradesmen are also arranging for a series of meetings at which prominent speakers will describe the effects of prohibition in America. The dealers charge that the act aims "a deadly blow at the hard won liberty of the people."

## PORTO RICO SUGAR PRODUCERS MEET

(By Associated Press.)  
San Juan.—The Porto Rican Sugar Producers' association has replied to a request to join Cuban sugar interests in an effort to prevent returns from forcing down the price of raw sugar that while the local association could not join officially with Cuba in such an effort, because of federal laws, Porto Rico would not make shipments of sugar except as sold.

The cable received from the Association de Hacendados Colonos de Cuba said:  
"In view of the unjustified lowering in prices of raw sugar which endangers sugar growers' interests to this exclusive benefit of refiners, we invite you to inform us if you think it possible to obtain joint action to adopt legitimate measures to avoid grave losses in the present and coming crop."

Following the receipt of this cable a meeting of the board of directors of the Sugar Producers' association was called and Eduardo Gonzalez was authorized to send this reply for the Association.  
"Federal legislation prevents joint action and we assure you that our policy is to sell before shipment and not to offer in advance."

Prices of Farm Products  
Not Fixed by Bureau  
Washington, Sept. 16.—President J. T. Howard of the American Farm Bureau, denies that the marketing plan of the organization will attempt to fix prices for farm products. A committee was named at the meeting yesterday to work out a cooperative marketing plan for the grain crop.

# GULBRANSEN

## They All Sing the Latest with the Gulbransen

If a song is a "hit" anywhere you can get it right away in a player-roll for the Gulbransen. All arranged so you can play it with spirit and expression. The words of verse and chorus printed on the roll.

There's nothing like the Gulbransen to give young folks and old a good time any time. Keeps you up-to-date on music. Makes your home the center of entertainment. Does away with stupid evenings alone.

Every Kind of Music  
More than 6000 compositions are ready for you in player-rolls for the Gulbransen. Besides the latest jazz or ballad, there are hundreds of good songs for those who sing well or are learning; also the principal numbers from all the grand operas; and every well known classical composition.

The Gulbransen is a great aid in musical study, either for those learning to play by hand to "show how it goes," or for those interested in higher musical interpretation. The Gulbransen is capable of every form of musical expression. Even the amateur who "doesn't know one note from another" can learn to play it with artistic feeling.

Gulbransen "Pedal Touch"  
The secret of the Gulbransen performance is in its "pedal touch"—the "feel" of the pedals against the pressure of your feet—the quick response they give to your slightest touch.

Until you have once played a Gulbransen you cannot appreciate what this means. Probably every player-piano you have tried has seemed to "make you

## SEEKS \$10,000 FOR M'LEAN AUTO DEATH

Cousin of Dead Woman Files Suit in Circuit Court Here.

Charging that careless driving was the direct cause of the death of his cousin, Mrs. Martha Eliza McLean, aged 44, on October 21 of last year, George McLean, Center avenue, this morning filed a \$10,000 damage suit against George Buggs, youthful driver, and his father, Paul E. Buggs, 622 Locust street.

McLean charges that at the time of the accident Buggs was driving at the rate of 15 and in the employment of his father, for whom he drove automobiles for hire.

The accident took place at the intersection of Center avenue and Center street, as Mrs. McLean was on her way to post letters. The automobile which Mr. McLean claims was being driven at the rate of about 15 miles an hour, hit the victim with such force as to throw her down and fracture her skull, break her leg and inflict other injuries which proved fatal within three hours after the accident.

McLean further charges that the driver did not sound his horn or give any signal of his approach, although he saw Mrs. McLean about 100 feet in advance, and that he drove on in spite of the fact that he had ample time to do so.

At the time of the accident young Buggs was charged with manslaughter in the fourth degree. Upon investigation of the coroner's jury it was decided that the death was due to criminal or culpable negligence.

Judge Maxfield held young Buggs for trial. A change of venue was later taken and the boy was freed by Judge Grinn in circuit court.

The damage suit will be taken up in the October session of circuit court. F. C. Burpee acting as counsel for Mr. McLean.

**HUNTERS OUT TODAY; MANY AT KOSHKONONG**

If you saw a few autos stealing out of town at the hour of 3 o'clock this morning and happened to catch a glimpse of a black gun barrel sticking out of the side of one, you would have thought that a raid was to be made on a moonshine still or robbers were abroad. It was only a hunter on his way to Lake Koshkonong to inaugurate the 1920 duck hunting season.

A large number of local sportsmen flocked out to the hunting grounds today to be on hand when the sun peeped over the hills. While there were more hunters than ducks, success was reported by a number. Mallards were most numerous.

**POLICE WILL STOP SIDEWALK DRIVING**

Determined to put a stop to the practice of motorists driving their machines on sidewalks while streets are being paved, Chief Buggs served warrants on John Hoffmeyer, Wednesday. Arraigned in municipal court he pleaded guilty to the charge and was fined \$10 and costs.

The chief says similar arrests will follow if the violations continue.

## SMART GIRL DRAWS CLOTHES LINE FOR MATHEMATICS CLASS

Beloit.—Domestics will triumph over mathematics, at least so says John Wolf, new Beloit high school teacher. Mr. Wolf is teaching geometry. He asked a girl pupil to draw a "closed line," which is a geometrical term for a circle, square, or any plane figure.

"No," said the girl. "Yes, please. Just draw a closed line on the board."

"Surely," said the girl. So the girl went to the board and drew two perpendicular lines crossed by another line.

She proceeded to draw handkerchiefs and other clothes, taping the line with neat clothespins to hold the clothespins in place.

## N. P. CANDIDATES WIN IN COLORADO

Denver, Colo., Sept. 15.—W. both leading candidates for the republican nomination for United States senator claiming a victory, it appeared probable today that an official count might be necessary to decide the winner.

Returning from 1,120 precincts out of 1,632 gave Karl C. Schuyler, Denver, a lead of 2,378 over Samuel D. Nicholson, Leadville.

Victory for the nonpartisan league in the democratic primaries was indicated. In Denver, 11 of the democratic candidates for the legislature are nonpartisan league, as are three candidates for the state senate. James M. Collins, nonpartisan league candidate for democratic nomination for governor, has a lead of 7,701 votes.

Judge Tully Scott of the state supreme court has a lead of only 1,051 over W. R. Vallejos, nonpartisan league candidate for the democratic nomination for United States senator.

**BELOIT YOUTHS GET 18-MONTHS' TERMS**

Two youths sentenced to 18 months in the Green Bay reformatory by Judge John B. Clark, Beloit, for "breaking and entering a store in the night," were brought to the county jail this morning. The boys, Jesse LaPoint, 17, discharged from the service on July 21, 1920, with an excellent record during his entire service in his country and in the Argentine forest and at Verdun; and Leo B. Radke, 20, will be taken to the reformatory by Sheriff Beley on Friday.

**15 SCHOOLS STILL WITHOUT TEACHERS**

## LOCAL SISTERS AT HOSPITAL CONFERENCE

Sister Vincent and Sister Alphonsus, Mercy hospital, spent Wednesday in Milwaukee attending the first state conference of the Catholic Hospital association. Wisconsin is the first state to hold such a conference according to Rev. C. B. Moultrie, president. The Most Rev. S. G. Messmer, archbishop of Milwaukee, and prominent doctors attended the meeting which was held in Geau auditorium.

Thirty-one hospitals of the state were represented by doctors and sisters. Archbishop Messmer in his welcoming address said there is need for just such a conference as heretofore there has been too much individualism in Catholic hospitals. He emphasized the need for exchange among hospitals of ideas on management, and study of the state of the art.

Dr. J. J. Neehan, president of St. Joseph's hospital, Milwaukee, said that the Catholic hospital has done more toward raising the standard of hospitals than any other agency.

### Select Fine Apparel At Prices

Less than those of equal quality a year ago. The prices of Fall apparel at this store are undeniably less than those for equal quality a year ago.

This has been accomplished less by newer market levels than by greater diligence in buying and closepress in marketing.

Our showings now are exceptionally great with selections of most satisfying character.

### Distinctive Features in The New Coats

Luxurious Furs add worlds of charm to warm woolen textures and lovely colorings. The Fall coats feature rich furs. Perhaps on the collar alone or on both collar and cuffs one finds such furs as Beaver, Raccoon, Oppossum, Squirrel, etc., adding that distinctive touch so admired in beautiful coats. Fabrics and colors are new and varied. For example, such fabrics as Orlando, Vel de Cyne, Evara, Veldyne, Bolivia, Velour, etc. And again one finds new colorings — Malay, Nanking, Moonstone, Navy, Brown, Reindeer, etc. Long loose lines, creating wrap-like effects, pleated backs, plain and belted models and belted styles find the most pronounced for Fall. And all are moderately priced.

### Highest Quality New Fall Suits

Now you need not hesitate to buy a new suit. Women who have searched and hoped for more favorable buying opportunities will welcome this news. The tendency for more moderate prices is definitely apparent.

And what lovely suits they are, their slender tailored lines emphasize the charm and the beauty of the rich-toned duvetyns and tricelines and twills from which they are made, and they show many novel ways of using fur, braid, embroidery and beads as trimming.
